February 15, 2005 Second Semester 2004-2005 Ages and stages Outcomes

Summary: Ages and Stages screenings are currently being completed on children who have recently enrolled in the program. One child is not yet old enough for the first screening. Second screenings have begun on those children still attending Chana Child Development program and that are age ready for the next assessment level. Only one child meets the criteria at this time has been screened. Most of the children attending the first semester of 04-05 are no longer enrolled due to parent's graduation or program change.

| 20 month ASQ summary | | Score | | Cutoff |
|----------------------|----|-------------|------|--------|
| Communication | 60 | (16 mo 60) | 36.6 | |
| Gross Motor | 60 | (16 mo.60) | 36.2 | |
| Fine Motor | 55 | (16 mo.55) | 39.8 | |
| Problem Solving | 60 | (16. mo 40) | 29.9 | |
| Personal-Social | 55 | (16 mo. 60) | 35.2 | |

This child improved in her problem solving skills while dipping slightly in the personal-social skills but is still well above the caution area.
